BEST Performance Tracksuit is for swimmers to wear over a competition swimsuit. It is designed to be easily removed or replaced during competition.

It will keep you warm after races and cool downs, this is to speed up the recovery process and save energy. When your resting it is also designed to keep you cool and relaxed.

Ensuring your body temperature is regulated well is crucial to how you perform in the pool. Warming up is important before any sporting activity, saving energy and keeping warm can be the difference over long meets or events.
